## Notes

- 1 **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section.
- 2 **True and fair view** If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.
- 3 **Consolidated profit and loss account**
- Item 1.1 The definition of "operating revenue" and an explanation of "sales revenue" (or its equivalent) and "other revenue" are set out in AASB 1004: Disclosure of Operating Revenue.
- Item 1.4 "+operating profit (loss) before abnormal items and tax" is calculated before dealing with outside +equity interests and extraordinary items, but after deducting interest on borrowings, depreciation and amortisation.
- Item 1.7 This item refers to the total tax attributable to the amount shown in item 1.6. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as operating expenses (eg, fringe benefits tax).

- 4 **Income tax** If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.
- 5 **Consolidated balance sheet**  
**Format** The format of the consolidated balance sheet should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of AASB 1029 and AASB 1034. Banking institutions, trusts and financial institutions identified in an ASC Class Order dated 2 September 1997 may substitute a clear liquidity ranking for the Current/Non-Current classification.  
**Basis of revaluation** If there has been a material revaluation of non-current assets (including investments) since the last annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of paragraphs 9.1-9.4 of AASB 1010: Accounting for the Revaluation of Non-Current Assets. If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required. Trusts should also note paragraph 10 of AASB 1029 and paragraph 11 of AASB 1030.
- 6 **Statement of cash flows** For definitions of "cash" and other terms used in this report see AASB 1026: Statement of Cash Flows. Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of AASB 1026. +Mining exploration entities may use the form of cash flow statement in Appendix 5B.
- 7 **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the +ordinary securities (ie, all liabilities, preference shares, outside +equity interests etc). +Mining entities are not required to state a net tangible asset backing per +ordinary security.
- 8 **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the entity's consolidated +operating profit (loss) and extraordinary items after tax by more than 5% compared to the previous corresponding period.
- 9 **Rounding of figures** This report anticipates that the information required is given to the nearest \$1,000. However, an entity may report exact figures, if the \$A'000 headings are amended. If an entity qualifies under an ASC Class Order dated 9 July 1997, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.
- 10 **Comparative figures** Comparative figures are the unadjusted figures from the previous corresponding period. However, if there is a lack of comparability, a note explaining the position should be attached.
- 11 **Additional information** An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to

complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the +ASC under the Corporations Law must also be given to ASX. For example, a directors' report and statement, if lodged with the +ASC, must be given to ASX.

- 12 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if one) must be complied with.
- 13 **Corporations Law accounts** As at 1/7/96, this report may be able to be used by an entity required to comply with the Corporations Law as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards.
